WHO WE ARE

Silvasti is a Finnish family business specializing in heavy and oversized transports and project logistics. We are the largest Nordic company in the business, with decades of solid experience in demanding international haulages across Europe and Russia. We particularly excel in the harsh northern winter conditions.

WHAT WE DO

We believe in teamwork, and we take pride in giving you personal and flexible service in your most demanding special transport needs. We will plan and execute each transport, from a single haul to all-inclusive projects, as turnkey solutions. Our fleet accommodates all sizes of special loads, and thanks to our network of reliable partners, we can deliver your special cargo anywhere across the globe.

OUR AREAS OF EXCELLENCE

- Special transports
- Project logistics
- Wind power logistics
- Jacking and skidding
- Route and project planning

Special transports from Pietarsaari to Äänekoski

SILV
SILV

Total height

10,2 m

Total width

9 m

Transport distance

400 km

Duration

5 nights

OUR AREAS OF EXCELLENCE

SPECIAL TRANSPORTS

Your transportation needs are unique. So is our solution – solid teamwork with top-of-the-line equipment, tailored to your project.

PROJECT LOGISTICS

Wherever your cargo goes and whatever it takes – road hauls, shipping, jacks or skidding – leave it all up to us, from planning to delivery.

SHIPPING

The road ends by the sea, but your cargo needn't stop there. We will ship it to any port around the globe, as a turnkey project.

JACKING AND SKIDDING

Lifting with cranes is not always an option on your site. We have serious experience in jacking and skidding complex pieces safely into place in demanding environments.

ROUTE AND PROJECT PLANNING

With special cargo, careful planning is key. It not only saves you from unwelcome surprises, it often saves you time and money as well.

OUR RECIPE FOR CUSTOMER SATISFACTION

|| Smooth operation is our number one criterion. The good thing about doing business with Silvast has been that we're constantly being kept up to date on the progress of the project. We can also trust that whenever something unusual occurs, things are taken care of appropriately.

*Maiju Koponen, Logistics Coordinator
Allu Finland Oy*

Serving You smoothly through
one point of contact

Saving your costs through
careful planning

Keeping you always
up-to-date

Improving our service through
your feedback

OUR ADDITIONAL SERVICES INCLUDE

- 
- A yellow Silvasti truck with a crane is lifting a large pipe. The truck has 'SILVASTI' written on the side. A red forklift is also visible. In the background, there are large piles of wood chips and a residential area on a hillside.
- Crane services
 - Port operations
 - Site surveys
 - Supervising
 - Temporary storage
 - Forwarding
 - Temperature controlled heavy transports

*As our customer, you can be sure that the safety of your cargo,
and of every person involved in the project, always comes first.
We also take pride in minimizing our environmental impact.*
